ELIXHEAL™
SKINCARE

The Ultimate Dermal Therapies

Advanced Professional Skincare Solutions

www.elixheal.com

WHO WE ARE

Derma-Aesthetics Manufacturer.
Research&Development of advanced skin care professional products for the ultimate dermal therapies.
Trademark Elixheal™ Skincare.

WHAT WE DO

Elixheal™ Skincare formulates, manufactures and distributes products for the Aesthetic SPA, Medical Aesthetics and Wellness & Beauty industries.
Advanced formulations to heal all and any type of skin imperfections.
Customer satisfaction and quality are the main priorities for our staff.

HOW WE DO IT

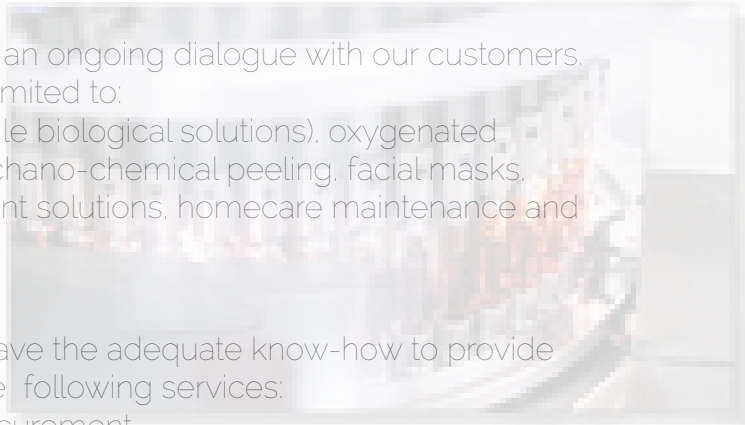

All of our references are submitted to several control tests before, during and after production - according to GMP and ISO 9001 guidelines - to ensure that all the formulations always match their specifications on appearance, quality and performances.
Paraben and phthalate free, do not contain any substance of animal or human origin or material derived from Genetically Modified Organism (GMO).
Research, formulation and production follow the international regulations and pharmacy/cosmetic laws.

OUR LABS

We works at strict contact with a wide number of affiliated Laoratories, in Europe and USA, on a contract manufacturing basis.
Every and each product of our portfolio is formulated and developed by our team of skin professionals, and remains per legal bond an exclusive property of Elixheal™ Skincare.

OUR PRODUCTS

We develop our range relying on an ongoing dialogue with our customers. Our portfolio includes, but is not limited to:
mesotherapy mesocomplex (sterile biological solutions), oxygenated micromesotherapy machine, mechano-chemical peeling, facial masks, cleansing and tonic, post-treatment solutions, homecare maintenance and much more!

OUR SERVICES

Elixheal's team of professionals have the adequate know-how to provide you with the best solutions for the following services:

- Raw materials research and procurement
- Formulation
- Analysis and trials
- Graphics
- Packaging
- Marketing & Sales Consulting

OUR MILESTONE

"Less is More"

The vast majority of our references is specifically conceived to optimize the work of the skin professionals, in terms of time and profits.

Our greatest achievement is a synergistic system based on a balance of action-reaction of the processes from the inside. This type of synergy is the key factor to generate a positive balance aimed at increasing the penetrability and producing an immediately visible effect.

We have applied this criteria in order to grant the higher rate of effectiveness over time.

THE RANGE

Essentia®	Mesocomplex (sterile biological solutions)
Skinens®	Multipurpose Viscoelastic Creamigel
Oxypin®	Oxygenated MicroMesotherapy
Micropin540®	CIT Rollers Fakir type Diamond-cut
GFplus®	Autologous Safe GFs Activator
Dermalyse®	Mechano-Chemical Superficial Peeling
DermaTonik®	Face and Body Tonic Solution
PhytoDerMask®	PhytoExtracts Facial Mask sheet
OxyDerMask®	Facial Oxygen Mask sheet
DermoLact Duo®	Milky Tonic and Cleanser
Bi-Eau®	Micellar Water with Herbal Extracts

THE MESOCOMPLEX

A Mesocomplex is different from traditional mesococktails or single ingredients.

A single ingredient is not enough to treat a skin imperfection, and even if mixed to other single ingredients, there isn't a previous clinical study or evidence that the ingredients mixed by the skin professional will actually prove to be beneficial for what is being treated.
The use of single ingredients will result in a mere waste of product, time and profits.

Mesococktails are basically a mix of 2 to 9 ingredients, whose main limit is that after a few times it is used, due to immediate immune response from the body, the mesococktails become ineffective.
It is also well known that mesocoktails can only treat one category of skin imperfection (i.e. only for anti-aging, only for hyperpigmentation, only for stretch marks and so on...).

A mesocomplex goes beyond the traditional limits of single ingredients and mesococktails.

It is considered a MESOCOMPLEX a mixed formulation made up of :
BASE (ACTIVES +EXCIPIENTS) including at least 4 concentrated compounds aka COMPLEXES, whereas each complex includes its own compound or mix, bound together to work in synergy altogether.

The same product can be used ro treat and heal any category of skin imperfections with the same unique product, on the same session.

THE MESOCOMPLEX

The main features of a mesocomplex are:

PHARMA GRADE INGREDIENTS

Higher purity means lower level of endotoxins.

HIGHEST CONCENTRATION OF THE ACTIVES

Base Actives + 4 complexes mixed in one unique formulation.

PROTECTOR FACTORS

Each complex has at least one protection and anti-inflammatory ingredient (i.e. pisum sativum extract, panax ginseng...).

ANTI-OXIDANT INGREDIENTS

A high percentage of anti-oxidant is present to balance the free radicals' answer.

Essentia® SKIN

BASE FORMULA

Actives (ie. Nerium, Sodium Hyal, Gluthatione, Metylsilanol mannuronate...)
+ Excipients (Sodium Benzoate, potassium Sorbate...)

HAF Complex

(sodium pca, urea, aloe barbadensis extract, opuntia coccinellifera flower extract+ ceratonia siliqua seed extract, panax ginseng root extract, extract, hydrolyzed elastin)

GRD Complex

(faex extract, glycine soja germ extract, pisum sativum extract, vicia faba seed extract, phaseolus vulgaris extract, aminobutyric acid, hydrolyzed serum protein (hexapeptide+octapeptide), tocopheryl acetate, ascorbyl palmitate,retinyl palmitate, B-group vitamins)

DReg Complex

(hidrolized vegetal RNA, panax ginseng root extract, ginkgo biloba leaf extract, hydrolyzed collagen, hydrolyzed elastin, humulus lupulus extract, silybum marianum extract, thymus extract, adenosine triphosphate, allantoin, placental protein, AHA)

DEP Complex

(hibiscus sabdariffa flower extract, arctostaphylos uva ursi leaf extract, kojic acid, AHA Lactico,Malico, Citrico,Glcolico, Tartarico)

Essentia® SKIN

Permeation-enhancing actives.
Contributes to scleroproteic fibres formation and exerts a repair and vivifying action on the skin.
It accelerates healing of wounds, great substantivity of skin proteins. It activates the generation of collagen, restructuring the skin. Ensures a remarkable whitening effect and improvement of the skin tissue (i.e. for photo-aging damages) along with extraordinary hydrating properties.

INDICATED FOR

Essentia

Lipocell

4 One Formulation Complexes

High Concentration of the Actives

Effective Actions in One Treatment

Reduction of the Lipo-Edema by Infiltration in Choked Tissues

Restores Microcirculation

Diuretic Action to reduce water-retention effects

Adipocytes Hydrolysis (Lipolysis of fat deposits in excess)

Protects and Restructures the Connective Tissue

Counteracts the calcification of Connective Fibers

for Face & Body

Essentia
LIPOCELL

BASE FORMULA

Actives (L-carnitine, Cynara Scolymus Extract, Centella Asiatica Extract, Dandelion Root Extract, Hamamelis Virginiana Extract, Fumaria Officinalis Extract, Troxerutin, Methylsilanol Mannuronate)
Excipients (Tween80, Sensiva PA40...)

Anti-Flaccidy Complex
(HUMULUS LUPULUS, HYDROLYZED ELASTIN, PANAX GINSENG, SERUM ALBUMIN, ADENOSINE TRIPHOSPHATE, EQUISETUM ARVENSE)

Anti-Cellulite Complex
(PAULLINIA CUPANA, AESCULUS HIPPOCASTANUM, ALGAE)

Med Reductor Complex
Mediterranean Reductor Actives

(JASONIA GLUTINOSA, OLEA EUROPAEA, ALGAE)

Anti-Lipidic Complex
(THIAMINE HCL, TIOXOLONE, TOCOPHERYL ACETATE, YEAST EXTRACT, NICOTINAMIDE, RETINYL PALMITATE)

INDICATED FOR

- Facial contouring
- Lipo-face reduction (double chin, eyelids, puffiness)
- Localized fat on the body
- PEFS and orange peel cellulite

skinens®

Multipurpose Viscoelastic Creamigel

Peptides inihibiting the SNARE complex & EGF-like action + strongest hydration power.

fast absorption :: visible action immediately :: parabens free

It has a synergistic effect and complimentary action with all type of dermal treatments.

INDICATED FOR

Anti-Aging | Skin Repair | Skin Nourishment | Skin Lightening

*also recommended for pre-treatment of acne and maintenance treatment of acne signs.

Made with pharmaceutical grade ingredients, can be used on delicate skin.

skinens®

4 Enriched Complexes in ONE unique formulation.

Equisetum + HydroActive/Antiflaccidity Complex :

Maintains epithelial water balance. Protein synthesis to prevent and delay aging. Ensures elasticity, tone and skin suppleness.

Centella Asiatica + Derma-Regenerating Complex :

Gentle exfoliation and Biostimulating action with regenerative and antiphlogistic effect.

Avena Sativa + Grundeline Complex :

Anti-free radical properties, protects the skin by enhancing skin barrier.

Disodium EDTA + Depigmenting Complex :

Fast lightener effect on the signs after treatment and tyrosinase process inhibition.

A very small amount covers a wide skin area.

Skin imperfections

Pigmentation

OXYPIN®

USPTO EPO IPO Effectual Services PATENT FILED Innovating Solutions To Support Your Goals AusPat

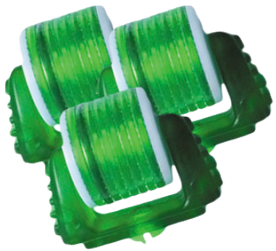

OXYGENATED MICRO-MESOTHERAPY

Simultaneous activation of several physiological processes in synergy.
Oxygen (-O2): increase the metabolic processes in cells and,therefore, the function of body tissues.
Booster effect of Autologous Collagen Production (CIT) and topical application of a pulverized liquid solution, to a high rate of penetration/ absorption (over 76%) during Prothrombin Time (PTT).
Microneedling+Mesotherapy = Micromesotherapy + Oxygen (-O2)*
*Negatively Ionized Oxygen

FEATURES	ADVANTAGES
Anti-leakage System	No product waste
Oxygen mixed Technology	Double pulverization by mixing oxygen under pressure
Stainless Steel Tank+Perforated Cap	No risk to oxidize or lose sterility
Electronic Pressure Regulating Mode	Oxyflow stability ensures accurate and precise application
Perfect Layer Effect	Evenly sprayed and greater coverage in one passage
3'N 1 Performance	Combined procedures OxyTherapy+Micro-Mesotherapy and product transfer simultaneously
Mini-compact Shape	Easy to carry and clean
Ergonomic	Air hose flexibility and light-weight airgun for easy handling
Airgun Holder	Practical and hygienic operation

MICROPINS40

New generation dermal roller heads with 540 micropins.
No more skin damages thanks to the micropins in TITANIUM, stronger, inflexible and more durable.

Suitable for face and body, the MICROPINS40 FAKIR TYPE roller and DIAMOND-SHAPED TIP allow a more comfortable treatment, greater coverage in one passage, faster and longlasting results.

SAFE PLATELET ACTIVATOR

GF plus®

GFplus" represents the next best thing to activate Buffy Coat (platelets to release growth Factors) without using chemicals, allowing 100% fully autologous procedure.

Platelets are the blood elements that usually flow along the blood stream, shaped like small plates in their non-activated form. But when they gets activated by wounds or damaged tissues, platelets perform their original functions of aggregation and subsequent release of granule content through the open canalicular system (GFs, glycoproteins).

GFplus 'Capillary Stress' method imitates that same mechanism of the platelets that get activated through the passage in narrow blood vessels in fast bloodstream, in order to enhance the release of Growth Factors

The activation of platelets is recommended to maximize the effect of PRP therapy PRP can be used for various types of treatments by triggering cellular proliferation, collagen production, hyaluronic acid's production, epidermal cell growth, angiogenesis, and etc.

The use of our GFplus with any PRP extraction procedure (no matter the PRP kit used) the number of Growth Factors (EGF, VEGF, FG F-2, PDGF, etc.) in platelets can be multiplied greatly allowing accelerated healing and reconstruction.

Dermalyse®

A peeling gel that provides simultaneously a mechanical and chemical action.
Dermalyse® peeling gel gel performs specific lightening and skin radiance actions based on the sinergy between the main actives in the formulation: AZELOGLICINA® + AHA + Gluta-VIT.E and Enzymes.

Enzymes of the Pineapple and Papaya, microspheres of apricot seeds, Vitamin E, gluthatione and organic silicon.

Dermalyse® loosens and removes the layer of dead cells & keratinocytes on the skin's surface & the stratum corneum, thus revealing the smoother, healthier-looking layer below. Enzymes help to eliminate dead skin cells making them come out: the skin has a lighter tone and an even more compact tissue. It's a gentle exfoliation without irritating the skin.

Regular treatments can help with fine lines, brown marks and dry spots (solar keratoses). They also can help minimize acne scarring–and even help with the treatment of acne by stripping away the plugs where acne bumps can form.

Refreshing tonic lotion formulated with Vit. E and Panthenol and high extracts of Hamamelis, Mimosa Tenuiflora, Aloe, Thymus Vulgaris and Chamomile.
DermaTonik plays a refreshing, tonifying and astringent action on the tissues, reconstituting the physiological protection of the skin mantle necessary for the defense of the tissues.

DermaTonik®

The skin will be replenished and soothed.
DermaTonik improves the skin's ability to hydrate itself, softens skin, and has regenerative properties of the skin tissue.

Skin Tonic
Soothing Action
Fresh Sensation

Organic Ingredients

It is suitable for all skin types but particularly suitable for the complete cleansing of tendentially mixed oily skin even the most delicate and sensitive.

MADE IN ITALY

PhytoDerMask®

A new ritual of beauty that highlights the benefits of the plants :

PhytoDerMask® is a natural and herbal mask composed of leaves sheets. Once hydrated with a lotion or simply with water, the mask adheres to the skin, thus transferring to the skin its phytoactives.

PhytoDerMask® is composed of green tea and peppermint leaves. The combination of these two plants creates a synergistic system and a complementary action,thus giving to the skin an anti-oxidant, detoxifying, tonifying and refreshing effect.

Green Tea Leaf sheet is made from the leaves from Camellia sinensis. Well-known for its antioxidant activity, the green tea contains a signicant concentration of polyphenols including EGCG (Epigallocathechin gallate) that allows toreduce free radicals. The presence of tannins strengthens this antioxidant activity by protecting skin from external oxydative activities (like UV, stress,...).

Green tea gives to the mask an anti-oxidant, detoxifying and tonifying action.

Peppermint Leaf is an herbaceous perennial plant belonging to the family of Lamiaceae. Known for its tonifying, refreshing, astringent, purifying and revitalizing properties, peppermint is rich in rosmarinic acid, in menthol and in flavonoids which make it a major anti-oxidant. The peppermint acts in tightening the pores and revitalizes dull, tired-looking skin.

Peppermint promotes lasting radiance to dull complexion.

Suitable for people with skin imperfections (skins juveniles), and oily skin problems.

MADE IN FRANCE

MADE IN FRANCE

OXYDERMASK® is the last generation professional skin care facial mask.
Its superfine fiber structure of biocellulose (obtained by natural fermentation of coconut water) allows it to fit like a second skin and maintain the dermal contact.
When applied, OXYDERMASK® forms a protective membrane that conveys effeciently the beneficial actives contained in it. The combination of the PURIFYING COMPLEX and OXYGENATING COMPLEX with green tea leaves extract, revitalizes and restores the radiance of all types of skin.

GREEN TEA LEAVES EXTRACT allow the skin to get rid of fatty acids thanks to their lipolitic activity. It drains the toxins (thanks to theanine and the flavonoids contained on its leaves) and reduces the 'orange peel' skin effect by smoothing the skin. Its high concentration in antioxidant eliminate bacterias.

THE PURIFYING COMPLEX is composed by a peptide obtained by extraction of the seeds of Moringa oleifera (a tree native to india). It has a dual activity:
- protects skin cells against aggressions of pollutants.
- purifies the skin, by faciliting the removal of all micro-particles, coming from theenvironment that "asphyxiate" the skin.

THE OXYGEN COMPLEX is rich in arabinogalactans from Nasturtium, and boosts the body s capacity to overcome hypoxic stress and eases the transport of oxygen within cells. By promoting oxygenation of skin cells, this active ingredient improve the skins surface condition giving it a healthy glow.

THE SKIN IS RESTRUCTURED, IT REGAINS ITS DENSITY AND ITS CONTOURS.

OXYDERMASK®

ELIXHEAL™
SKINCARE

TRADEMARK ELIXHEAL™ SKINCARE

One Solution to a Perfect Skin

Our production is characterized by the attention to the details - typical of the Made in Italy - and by a selection of unique components to develop peculiar solutions that treat, correct and restore any skin blemishes and cutaneous imperfections.
